

slipcoat MRA™

THE MATERIALS BUILD-UP SOLUTION.

**USDA
CERTIFIED
BIOBASED
PRODUCT**
PRODUCT 37%

slipcoat **MRA™**

SLIPCOAT MRA™ is a 100% environmentally friendly industrial non-stick /anti-freezing coating product that is designed for use in the mining, railroad and coal fired power generation industries. It eliminates sticking and freezing of materials to all types of equipment surfaces.

PRODUCT OVERVIEW:

- 100% biodegradable and certified USDA Bio-Preferred
- Eliminates materials build-up caused by sticking on all types of equipment & surfaces
- Has no negative effect on equipment or painted surfaces
- Delivered ready to use – no mixing or dilution is required
- Does not evaporate at high temperatures or freeze at low temperatures
- Non-hazardous, non-toxic and no harmful fumes or vapors
- Advanced filming technology allows for low usage requirement – 1 gallon covers about 1,000 square feet
- Provides a protective film that helps to inhibit rust and corrosion
- Opportunity to increase productivity, decrease operational costs and increase equipment lifespan

slipcoat MRA™

IS IDEAL FOR USE IN THE MINING,
RAILROAD AND COAL FIRED POWER
GENERATION INDUSTRIES ANYWHERE
THAT STICKING OF MATERIALS
OCCURS

slipcoat MRA™ can be used
on any surface where sticking
and/or freezing is an issue,
including, but limited to:

- Truck boxes
- Vehicle Underbodies
- Shovel Buckets
- Rail Cars
- Chutes
- Scoop Trams
- Skips
- Screens
- Loaders
- Conveyors
- Tankers
- Roll Off Boxes
- Hoppers
- Tracked Vehicles
- Any equipment surface
that experiences
sticking and/or freezing

FREQUENTLY ASKED QUESTIONS

What is SLIPCOAT MRA™?

SLIPCOAT MRA™ is a 100% environmentally friendly non-stick coating product designed specifically for use in the mining, railroad and coal fired power generation industries. It eliminates sticking, freezing and materials build-up on all types of equipment and surfaces.

How can SLIPCOAT MRA™ help my operations?

We pride ourselves on being a total solution to sticking, freezing and build-up problems. We perform site audits to evaluate problems and provide a full report to customers describing where the problems are occurring, what can be done to stop the problems and what productivity/operational cost improvements can be expected by utilizing SLIPCOAT MRA™.

What productivity/operational cost benefits have been experienced by other customers?

Productivity/operational cost savings of more than 30% have been experienced. It will depend upon the amount of materials that builds up on equipment without using SLIPCOAT MRA™.

Will SLIPCOAT MRA™ work in cold temperatures?

Yes, SLIPCOAT MRA™ is frequently used to prevent materials from freezing and sticking to surfaces in temperatures as low as -40 degrees C.

How much SLIPCOAT MRA™ is needed for a given surface area and how often does it need to be applied?

Application rate is typically about 1 gallon per 1,000 square feet. Application frequency will vary depending upon the application.

Does SLIPCOAT MRA™ contain any carcinogens or reproductive hazards?

No. SLIPCOAT MRA™ is manufactured following strict health, safety and environmental guidelines.
